

Smart Solutions to Automate Alt Text

Splash Access™ Alt Text is a subscription-based software that **analyzes ALL images in your PDFs and inserts accurate, WCAG 2.2-compliant alternative text directly into the figure tags** of your document – eliminating the need for manual entry. Designed for organizations that must comply with digital accessibility standards and remove barriers to inclusive content, Splash Access™ Alt Text delivers **speed, accuracy, and compliance**. Perfect for busy teams, the platform accelerates remediation by replacing manual image descriptions with automated, audit-ready alt text.
